Offering a variety of tourism services in partnership with MediNomi's affiliates

My records, managed by me

# My Records

## Real-time tracking of the treatment process

- Real-time tracking of the treatment process
- Transparent management and sharing of the patient's treatment flow

## Optimized treatment flow

- By analyzing patients' hospital usage patterns, we reduce inconvenience through an optimized treatment flow.

## Self-management of personal health records

- Easy and convenient health record management
- Manage all hospital-related information—consultations, treatments, prescriptions—through MyRecords.
